Hello,

I am writing to ask for an appointment with Dr Ben Carter as soon as possible. On 26 August 2026 I had a sudden severe headache that came on quickly. It is not like my usual migraines - those normally follow the same pattern each time, and this one felt different and more severe from the start.

I took my sumatriptan, which helped partly, but the headache has not fully settled. I have not had any weakness in my arms or legs.

Could I please be seen so this can be assessed? I am happy to come in at short notice.

Thank you,
Sofia Nguyen
